## **Enterprise Telephony Group Honored by AT&T Business Solutions as Top Solution Provider**

Solution Provider Champion Award Recognizes Outstanding Performance in Providing Customers  
With High-Quality Solutions and Services

FAIRHOPE, Alabama (January 26, 2009) – Fairhope-based Enterprise Telephony Group, a leading provider of complete telephone and networking solutions announced today they have been named one of AT&T's Solution Provider Champions. ETG is one of a select group of top AT&T partners to receive this distinction by achieving the highest levels of sales and service among their peer companies during the 2008 calendar year. The recipients were announced at AT&T's recent Alliance Channel sales kickoff meeting in Dallas.

The AT&T Alliance Channel program focuses on solution providers who work with the company to serve the needs of small businesses to large enterprise customers.

AT&T Business Solutions recognizes the highest-performing solution providers that achieve specific revenue standards, maintain training competencies and demonstrate specific levels of expertise in providing customers with high-quality solutions and service. Solution Provider Champions combine their own value-added management and services with the power of the company's network, offer portfolios, network management, customer care and billing to provide customers with high-quality, dependable products and services.

"We continue to strive to be a top provider in telephony solutions in the Southeast, and are honored to be counted among this elite group," said Rickie Richey, President of Enterprise Telephony Group.

"The AT&T Business Solutions Provider Champions consistently meet our customers' business requirements and deliver first-class customer solutions and service, helping our customers use technology to drive productivity from their communications investment," said Kevin Leonard, AT&T vice president, Alternate Channels.

### **About Enterprise Telephony Group:**

Headquartered in Fairhope, Alabama, Enterprise Telephony Group, Inc. provides complete telephone solutions for small and medium sized businesses by utilizing a combination of standard business telephone systems, networked telephone communications, network management and thin-client computing that provide a rapid return on investment and a low total cost of ownership.
